

Low x Meeting 2015

Sandomierz, Poland, 1 – 5 September 2015

The 23rd Low x Meeting will take place in Sandomierz, Poland, September 1-5, 2015.

This meeting is a part of a series organized since 1993. The spirit of these meetings is to favour fruitful and informal discussions between experimentalists and theorists. A considerable part of time is devoted to discussions on new results, hot topics and exciting open problems in QCD at colliders.

We invite submissions of talks related to the following subjects:

- DIS at small x and structure functions of the proton, photon and pomeron,
- LHC results on QCD and diffraction,
- Problem of saturation,
- Diffractive events and the problem of pomeron,
- Exclusive production,
- Diffraction in lepton and hadron induced reactions,
- Hadronic final states,
- Vector meson production,
- Prospects in photon-photon physics,
- Heavy Ion Physics (QGP, saturation...),
- Astroparticle physics,
- Spin physics at low x ,
- Other hot topics (open to suggestions).

Venue:

The meeting will take place in Sandomierz in Hotel Sarmata (<http://www.hotelsarmata.pl>). Sandomierz is one of the oldest Polish cities. It is located on the Cambrian hills on the Vistula bank about 150 km east of Kraków and 100 km north-west of Rzeszów. The first settlements can be traced down to Neolithic Era. In Middle Ages Sandomierz gained importance and eventually became one of the three *sedes regni principales*. In XIIIth century after the Tatars invasions a vivid colonisation of the Sandomierz surroundings took place. Later, the city was rebuilt in Renaissance style and the magnificent Old City is preserved till nowadays. Its elevated Market Square with small coffee shops and restaurants is a picturesque spot.

Sandomierz surroundings deliver opportunity for a close contact with nature. Pepper Mountains with their landscape, wild flora and geological preserve are of particular beauty.

Meeting website and contact:

The up-to-date information can be found at the meeting website: <http://lowx2015.ifj.edu.pl>.

In case of questions please contact: Janusz.Chwastowski@ifj.edu.pl, phone: +48 12 66 28 449.

Accommodation and travel:

The information on lodging and travel is available on the conference website.

It is expected that the participants will arrive on August 31 and depart on September 6.

A conference transport between Kraków and Sandomierz will be organised on Monday, August 31 late afternoon and back on Sunday, September 6 in the morning.

Please let us now if you are interested!

Registration and Conference fee:

The regular conference fee of 150 EUR includes lunches, coffee breaks and the transfer from Kraków to Sandomierz on August 31 in the afternoon and from Sandomierz to Kraków September 6 in the morning.

Early payment deadline: July 31, 2015.

The conference fee should be paid to:

Polish Academy of Arts,
Slawkowska 17,
31-016 Krakow,
Poland

Account number: 02 1240 4722 1111 0000 4849 7314

BIC/SWIFT: PKOPPLPW

Please include your institute name and address into the transfer order and the registration form.

Make sure that the transfer contains the codename: **LOWX**.

Make sure that the transfer costs are on your side and that the sum reaches our account before the deadline.

Late payment (after July 31) is 200 euro.

Social events:

A guided tour through Sandomierz is foreseen on September 3 in the afternoon. It will last about four hours. Estimated cost is about 15 euro.

Conference dinner will take place on September 3 and its cost is 40 euro.

The 23rd Low x Meeting 2015 is supported by: Polish Academy of Arts, Institute of Nuclear Physics, Jagiellonian University, AGH University of Science and Technology, Marian Smoluchowski Kraków Research Consortium – KNOW and Polish Ministry of Higher Education.
